

## Day 17

Groundhog dawn with six foot plus sets pouring through. Thoughts had been to try the beachbreaks today but continuing perfect waves mean Peck and TC surf for over three hours out the front again. Life is just too good this day and the potential for trades is considered early so there is a big pre lunch tie up on the 'morning-shade' seat, and then some adjustments again immediately after lunch.

TC sells his spare legrope to pay for photos so he can give a few away to the locals. Gusti, Eda and Cici are stoked.
